

AUTOMATED SYSTEMS

CCR Controlled Automated Grinding Additive Dosing Systems Linked to Mill TPH
Automated Additive Preparation / Proportionate Redilution Systems
Grinding Additive Metering Pumps, Flow Transmitters, Agitators, Level Sensors, PLC Panels

ESTEEMED CLIENTS IN CEMENT INDUSTRY

Our Motto : Customer Satisfaction, Quality, Immediate Service & Spares Support

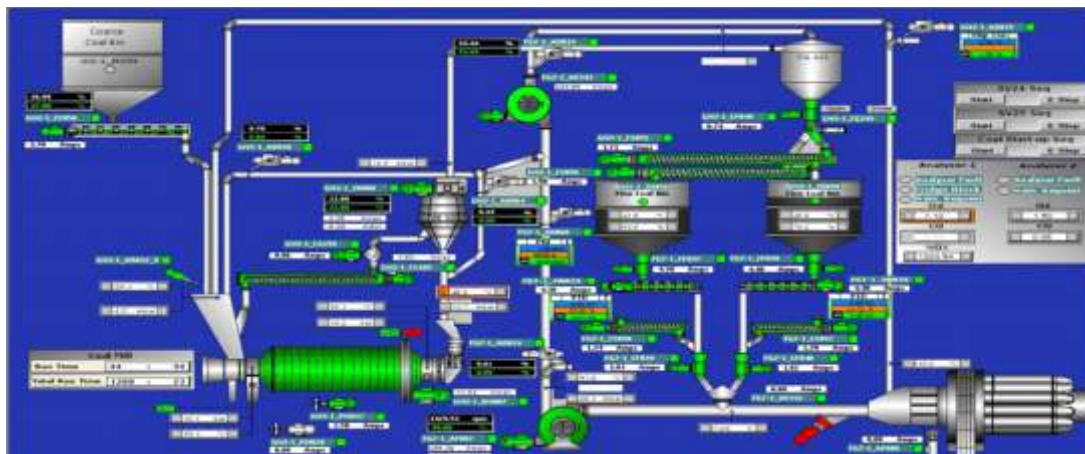

Grinding Additive Dosing Equipments : Supply, Installation, Servicing

ADITYA TECHZONE

Plot No. 250, IMT, SECTOR - 68, Faridabad-121004
Phone : 8588862601, 8588862602, 9958639101, 9868768636
E-mail : adityatechzone@gmail.com, info@adityatechzone.com

AUTOMATED SYSTEMS

The benefits / Cost savings are as follows :

- (1) Cost saving due to better production capacity and improved strength parameter due to accurate and automatic control of proportionate Grinding Aid dosing based on mill feed rate, % GA addition and GA flow.*
- (2) Cost saving in grinding process in ball mill and vertical mills due to better comminution and reduction in specific energy consumption per ton of cement due to better control in TPH linked dosing*
- (3) Cost saving in respect of reduction in consumption of costly Additives / Grinding Aid chemicals due to accurate dosing.*
- (4) Complete process control thru CCR / Instrument Control Room*
- (5) Fully automatic system with negligible manpower / manhour involvement*
- (6) No wastage / Spillage of GA chemical due to Automatic Transfer and Storage*
- (7) Longer working life of Dosing Pump and other system components due to accurate VFD control*
- (8) Total Control and Monitoring of Additive Consumptions easier due to process automation.*
